the vicinity thereof, unless the making and continuing of the noise is necessary for the protection or preservation of the health, safety, life, or limb or some person In making a determination of a noise disturbance, the Mayor shall consider the location, the time of day when the noise is occurring or will occur, and the duration of the noise

Chapter 8.68 NOISE CONTROL

increments in each category to encompass the ambient noise level If the ambient noise level exceeds the fifth noise level category, the maximum ambient noise level shall be the noise limit for that category (Prior code § 6602201) 868070 Interior noise standards A

Section 05.07 Noise

is noise standards in terms of percentile noise levels For example, the L10 noise level represents the noise level exceeded 10 percent of the time during a stated period The L50 noise level represents the median noise level; half the time the noise level exceeds ...

Chapter 23 Noise - Ellsworth, Maine

Chapter 23 - Noise § 1 - Findings and Purpose others by intentionally making loud and unreasonable noises after having been ordered by a law enforcement officer to cease the noise or similar such noises within the last six months B It shall be unlawful for any person in a private place to make loud and unreasonable noise after having

Chapter 13: Noise A. INTRODUCTION

create a noise level of 130 dBA, the equivalent of a jet airplane or air raid siren (see Table 13-1) In fact, the noise produced by the telephone ringing may be masked by the noise of the vacuum cleaner and not be heard The logarithmic combination of these two noise sources would yield a noise level of 722 dBA

THE FIRST AMENDMENT STRIKES BACK: AMPLIFIED RIGHTS

372 Stetson Law Review [Vol XXXI consideration of the following factors: the volume of the noise,⁴⁰ the intensity of the noise,⁴¹ whether the nature of the noise is usual or unusual,⁴² the volume and intensity of any background noise,⁴³ the proximity of the noise to residential sleeping facilities,⁴⁴ the nature and zoning of the area within which the noise emanates,⁴⁵ the time of the day or

Noise Element Adopted 11-08-07

707 The ambient noise level is the composite of noise from all sources near and far The ambient noise level constitutes the normal or existing level of environmental noise at a given location Noise attenuation is the reduction of sound intensity by various means Figure 7-1 Typical sound levels measured in dBA Stock car races Chainsaw Band

8:00 a.m.—10:00 p.m. 60 dBA 10:00 p.m.—8:00 a ... - Noise

Any noise emanating from private property which is plainly audible by a person of reasonably sensitive hearing at a distance of 100 feet or any noise which constitutes a substantial disturbance of the quiet enjoyment of private or public property as a result of conduct constituting a violation of law shall be a violation of this section
