The readings in International Political Economy: Perspectives on Global Power and Wealth are primarily intended to introduce the study of international political economy to those with little or no prior knowledge of it. The book is designed for use in courses in international political economy, international relations, and international economics.

States versus Corporations: Rethinking the Power of ...

relations between state and corporate power in the global system. Our approach thus consists of three theoretical extensions and their respective empirical implementations, which can be summarized as realistic, juxtaposed, actor- and relations-centred perspectives on state and corporate power.

...

The Importance of Information in International Relations

international relations as power in the global information society depends less on territory, military power, and natural resources. Furthermore, Wriston (1997:176) avers that in international relations, the competition for the best information has replaced the competition for the best farmland or coal fields.

Michael Barnett and Raymond Duvall

Power in International Politics Michael Barnett and Raymond Duvall Abstract The concept of power is central to international relations. Yet disciplinary discussions tend to privilege only one, albeit important, form: an actor controlling another to do what that other would not otherwise do. By ...
